

# TAC Meeting

15 February 2022

# Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

# Agenda

## Opening (25 Minutes)

- **Landscape updates**
- **TAC Sponsors for projects**
- **Summary of last TAC meeting & Updates from the Board Meeting**

## TAC Business (50 Minutes)

- Standards Project and Working Group Lifecycle Proposal
- FledgePOWER Annual Review

## Outreach updates (10 Minutes)

## Closing and next meeting (5 Minutes)

# TAC Voting Members

New members in **bold**

| <b>Full Name</b>      | <b>Account Name</b>                    | <b>Appointed By</b>                    |
|-----------------------|--|--|
| Boris DOLLEY          | RTE (Reseau de Transport dElectricite) | Vote of TSC Committee - OperatorFabric |
| Anne Tilloy           | RTE (Reseau de Transport dElectricite) | Vote of TSC Committee - PowSyBI        |
| Carmen Best           | Recurve                                | Vote of TSC Committee - OpenEEmeter    |
| Arjan Stam            | Alliander                              | Membership Entitlement                 |
| Jonas van den Bogaard | Alliander                              | Vote of TSC Committee - GXF            |
| Benoît Jeanson        | RTE (Reseau de Transport dElectricite) | Membership Entitlement                 |
| Antonello Monti       | RWTH Aachen University                 | Vote of TSC Committee - SOGNO          |

# LF Energy Hosted Project Leads

Changes in **bold**

| Project           | Project Lead(s)                               |
|-------------------|---|
| PowSyBI           | Anne Tilloy, RTE                              |
| OperatorFabric    | Boris Dolley, RTE                             |

# TAC Sponsors for projects

As part of the benefit for LF Energy projects, the TAC has a sponsor for each project.

*“Appointment of an existing TAC member by the TAC that will act as a sponsor of the project and provide recommendations regarding governance best practices.”*

**ASK: Volunteer to be a TAC sponsor for a project**

# LF Antitrust Policy Notice

LF Energy meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at LF Energy meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at

<http://www.linuxfoundation.org/antitrust-policy>

If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

# Agenda

- Scope of the project
- Cross foundation collaboration
- How we meet industrial requirements ?
- Roadmap for 2022
- Incubation stage requirements review
- Open discussion

# Scope of the project

FledgePOWER is a **multi-protocol translation gateway for power systems** based on the industrial IoT LF Edge project **Fledge**.

FledgePOWER aims to solve the problem of **multiple protocol translation** by providing the industry with a **flexible, lightweight, industrial-grade**, open source gateway that embeds Fledge from LF Edge.

Additionally, FledgePOWER provides a toolbox for simulation, data configuration and validation focused on protocol translation and use cases relevant to **power systems**.

## Cross foundation collaboration

FledgePOWER is a cross foundation **collaboration** between **LF Edge** and **LF Energy** that ensures strong cooperative governance and technical alignment between the two **communities**.

## How we meet industrial requirements ?

- Continuous integration using Github actions:
  - ◆ Code quality scanning using Sonar cloud
  - ◆ Automated Unit testing using GoogleTest framework
  - ◆ Automated vulnerabilities / cybersecurity checks using Sonar cloud and LFX Security
  - ◆ Functional and performance tests made on iso production platform

# Roadmap for 2022

#1 Deploy on Power system substation (production)

#2 Integration with SOGNO (POC)

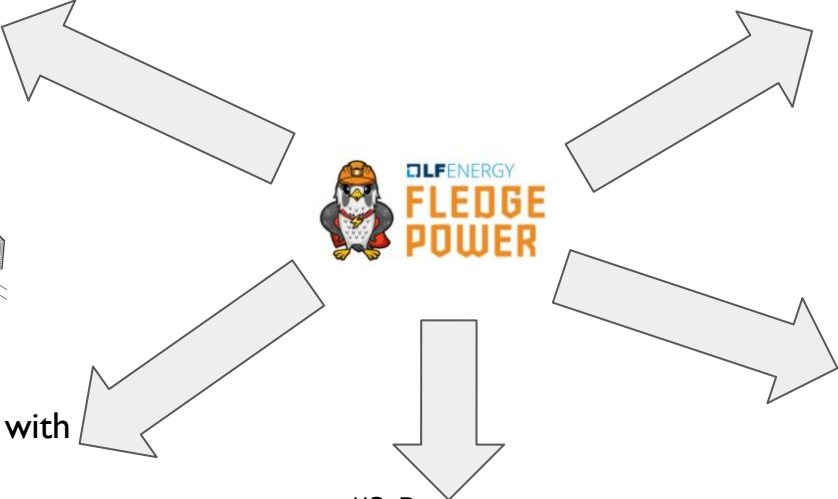

#3 Run on SEAPATH infrastructure (POC)

#5 Integration with OPFAB (POC)

#4 Integration with COMPAS (POC)

# Incubation stage requirements review (1/3)

- Have an open and documented technical governance, including:
  - A LICENSE file in every code repository, with the license chosen an [OSI-approved license](#). [✓]
  - A README file welcoming new community members to the project and explaining why the project is useful and how to get started. [✓]
  - A CONTRIBUTING file explaining to other developers and your community of users how to contribute to the project. The file should explain what types of contributions are needed and how the process works. [✓]
  - A CODEOWNERS or COMMITTERS file to define individuals or teams that are responsible for code in a repository; document current project owners and current and emeritus committers. [✓]
  - A CODE\_OF\_CONDUCT file that sets the ground rules for participants' behavior associated and helps to facilitate a friendly, welcoming environment. By default projects should leverage the [Linux Foundation Code of Conduct](#) unless an alternate Code of Conduct is approved prior. [✓]
  - A RELEASE file that provides documentation on the release methodology, cadence, criteria, etc. [✓]
  - A GOVERNANCE file that documents the project's technical governance. [✓]
  - A SUPPORT file to let users and developers know about ways to get help with your project. [✓]
- Complete and approve the Technical Charter and agree to transfer any relevant trademarks to The Linux Foundation or its affiliate, LF Projects, LLC, and to assist in filing for any relevant unregistered ones. [✓]
- Have achieved and maintained an [OpenSSF Best Practices Badge](#) at the 'Passing' level. [X]
- Have had a successful license scan with any critical issues remedied. [X]

## Incubation stage requirements review (2/3)

- An overview of the project's architecture and features defined. [✓]
- A project roadmap defined, which should address the following questions. [✓]
  - What use cases are possible now?
    - i. I04 => I04 (monitoring)
    - ii. I04 ⇔ KAFKA (monitoring)
  - What does the next year look like in terms of additional features and use cases covered ?
    - i. I04 ⇔ I04 (monitoring and control)
    - ii. HNZ ⇔ I04 (monitoring and control)
    - iii. 61850 ⇔ I04 (monitoring and control) optional
    - iv. POC integration with SEAPATH
    - v. POC integration with SOGNO
    - vi. POC integration with OPFAB
    - vii. POC integration with COMPAS

# Incubation stage requirements review (3/3)

- Community and contributor growth assessment
  - The current number of contributors and committers, and the number of different organizations contributing to the project
    - i. Contributor : RTE, Dianomic, Aveva
    - ii. Committers : RTE (code contribution ), Dianomic (code contribution)
  - Demonstrate a sustained flow of commits / merged contributions [ ✓ ]
  - A credible plan for developing a thriving user community, in particular expanding the number of committers and contributors?
    - i. First focus is to make the onboarding process easier by flattening the learning curve
  - Outline of the plan for the project to complete the requirements for Adopted Stage
    - i. Having a first successful deployment on a substation in production
    - ii. Having achieved at least 3 out of the 4 integration POCs listed in the roadmap
- Receive the affirmative majority vote of the TAC. [ ? ]

# Open discussion

## **Closing and next meeting (5 Minutes)**

# Next TAC Meeting

The next meeting of the LF Energy TAC is scheduled for 8 March 2022 at 8:00 am US Pacific Time/11:00 am US Eastern Time/5:00 pm Central European Time.

Agenda will include:

- Recap of last TAC meeting/Governing Board updates
- SOGNO annual review

Thank you!
